## SYNOPSIS

“Vincles”, a special production of Circ Bover to celebrate the company’s first decade.

From one simple element, bamboo, a show is built, which transmits the elegance and technique of circus arts through a truly different and unprecedented performance.

Primary scenic elements are transformed through emotions, and between them different contemporary circus acts arise. Thus demonstrating that starting from the essential, from simple elements, it is possible to achieve sophistication and a high technical and artistic quality.

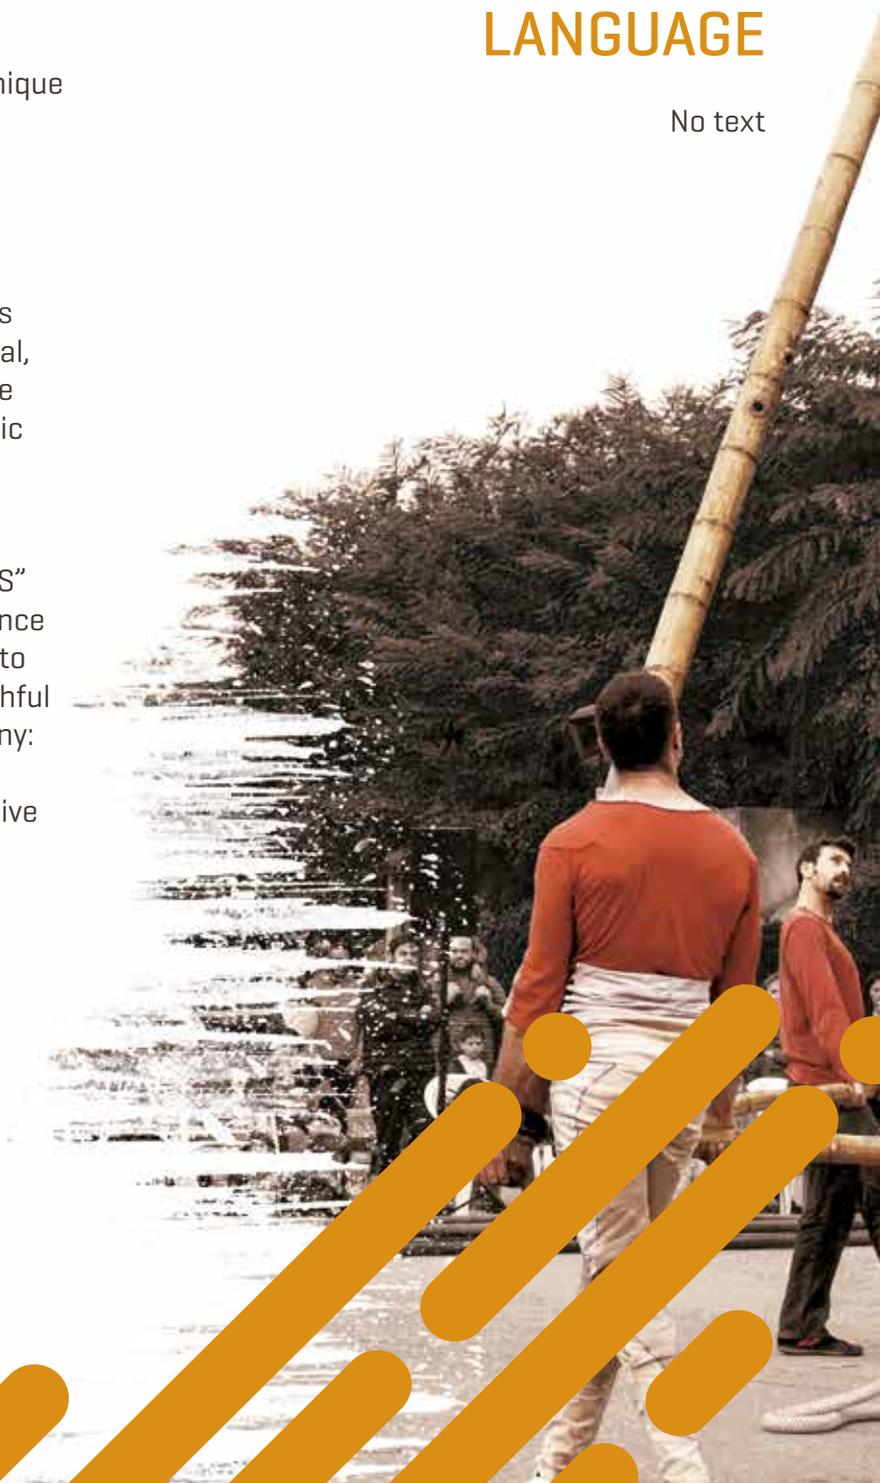

To celebrate its 10th anniversary Circ Bover presents its most ambitious project, “VINCLES” featuring an artistic team with a long experience in the field of contemporary circus. Its aim is to create a completely new show, remaining faithful to the essential characteristics of the company: the search for new languages, artistic and technical quality, simplicity and adaptability, live music, proximity to the public and sympathy.

## DURATION

45 Minuts

## LANGUAGE

No text

## ARTISTIC FILE

### Title

"VINCLÉS"

### Performers

## COMPANY

### CIRC BOVER RESPONSIBLE FOR THE DEVELOPMENT OF CIRCUS ARTS IN THE BALEARIC ISLANDS

Circ Bover is a professional circus company which in 2005 took the initiative to spread circus arts in the Balearic Islands, until then non-existent.

From the beginning Bover had the support of the cultural sector as well as the public of the Balearic Islands, who always welcomes each premiere or activity carried out by the company with sympathy and enthusiasm. Now that the company has acquired a name and recognition in its own territory, it will increase its presence outside the island, both nationally and internationally.

The company creates its own performances, modern circus combining the latest trends in contemporary circus with live music, theatre and dance.

Circ Bover has its own centre called, "the Circus Centre" in Sineu (Mallorca) with resident artists and a circus school. The company has also been the ambassador of Clowns Without Borders on the Balearic Islands since 2007.
